

MOUNTAIN BIKING SERIES

This is a three-part series in May 2024:

Part one: Thursday 16 May, 10:00am - 11:15am

Part two: Thursday 23 May, 10:00am - 11:15am

Part three: Thursday 30 May, 10:00am - 11:15am

Webinar One - 16 May 2024 Dispelling myths about mountain biking!

What is mountain biking and ways to manage it.

Operational models for councils.
Case studies for creating sustainable resilient trails.

Webinar Three – 30 May 2024 Telling compelling stories. The role of data.

Independent audits, what are they, why you do them, and how the data can be used.

Managing multiple users and stakeholder groups - Conservation / trail user Case Study.

Trail maintenance models, managing contractors, volunteers and providing suitable training.

Webinar Two – 23 May 2024 When trails mysteriously appear.

The challenges unsanctioned trails present to councils and ways to manage them. Dirt Jumps, ways to understand what they are and how to manage them - Council Case Study.

Considerations when deciding to commission or decommission unsanctioned trails.
